Dear Mr. Merks:

Further to our letter of May 7, 2003, we have completed a review of your April 28th submission. We also acknowledge receipt of your letter of May 20, 2003, with attachments.

From the review of the material provided it appears that the work undertaken by Matrix Consultants Limited is not included under the definition of the practice of professional engineering or professional geoscience, as defined in the *Engineers and Geoscientists Act*.

Thank you for your co-operation in resolving our concerns in that regard and our file in this matter is closed with no further action.

Sincerely,

Harry McBride, P.Eng.
Deputy Director, Professional Ethics
