Dear Mr. Merks:

Pete Unger wrote both you and me on March 4, 1995, in response to a letter from Scott Orthey, dated February 27, 1995.

I have reviewed your letter to Robert J. Morgan, "Applied Statistics in Mineral Exploration", note on "Freedom of Speech?", and ASTM Guide D 5549 - 94.

I am now enlightened, somewhat, in the area of Geostatistics, but am at a loss as to what is expected of me except to get in touch with you on my return from Mexico.

Please feel free to consider me as your ASTM, E-11 contact. Please write, FAX, or call if there is something I can do for you.

Sincerely,

Ricardo R. Stone, Ph.D.
