

**Title                    Sampling and Statistics Explained**

Chapter 1            Preface  
Chapter 2            Introduction  
Chapter 2            Sampling theory  
Chapter 3            **Statistical methods**  
Chapter 4            **Sampling practice**

<b>Section</b>	<b>Content</b>	<b>page</b>
2.1	Elements of probability	3
2.2	Counting methods	8
2.3	Probability distributions	10
2.3.1	Multinomial distribution	12
2.3.2	Binomial distribution	13
2.3.3	Poisson distribution	15
2.3.4	Gaussian or normal distribution	19
2.3.5	Standard uniform distribution	23
2.3.6	Standard normal distribution	26
2.4	Variance of general function	29
2.5	Matheron's statistics	32
2.6	Matheronian geostatistics	35
2.7	A colloquium on geostatistics	39
2.8	A textbook on geomathematics	44
2.9	A textbook on geostatistics	51
2.10	A handbook on geostatistics	57
2.11	A study on kriging small blocks	63
